PROFESSIONAL SUMMARY

Full-Stack & AI Engineer with 1.5+ years building production-grade systems — from LangChain-powered WhatsApp bots and RAG pipelines to full-stack medical platforms with Google Vertex AI. Hands-on across the entire stack: REST APIs, React frontends, PostgreSQL databases, and AWS/GCP deployments. I ship end-to-end, from architecture to cloud.

TECHNICAL SKILLS

AI & LLM: LangChain, LangChain JS, RAG, Google ADK, Gemini API, ChatGPT API, Google Vertex AI

Backend: Node.js, Python (Flask, FastAPI, Django), PHP (CodeIgniter, Core PHP)

Frontend: React.js, Next.js, JavaScript, HTML/CSS

Cloud & DevOps: AWS EC2, GCP, Docker, Nginx, CI/CD, Azure DevOps, GitHub Actions, Google Cloud Storage

Databases: PostgreSQL, MySQL, Prisma ORM

Integrations: WhatsApp API, Oracle OHIP API, SendGrid, REST APIs, Git

Languages: JavaScript, Python, PHP, SQL, Bash

PROFESSIONAL EXPERIENCE

Software Engineer

Asambhav Solutions

September 2025 – Present

Ahmedabad, Gujarat

- Built **AutoLead** — a WhatsApp lead generation bot using LangChain JS agents with RAG-based similarity search over client documents; automatically captures and stores leads in PostgreSQL
- Developed **hotel booking WhatsApp bot** integrated with Oracle Hospitality (OHIP) API for live inventory management and reservation processing
- Built full-stack **IVF clinic platform** (React + Node.js + Prisma + PostgreSQL) with AI-assisted medical image analysis via Google Vertex AI, GCS bucket storage, and time-limited signed URL generation
- Integrated Google ADK with ChatGPT and Gemini wrappers across multiple client projects; implemented LLM guardrails to enforce safe, on-topic chatbot responses and idle session expiry
- Created AI-powered **bank document parser** that extracts and analyzes structured data from bank statements, Aadhaar cards, and PAN cards
- Built internal **Discord productivity bot** that sends daily standup reminders and auto-flags team members who miss end-of-day updates
- Developed prompt-to-PDF document generation in Next.js with Gemini API integration
- Maintained legacy CodeIgniter eSign NDA tool: added time-limited signing links, post-sign expiry logic, and secure DB-backed document storage

Python Developer

FlyAnyTrip.com

December 2024 – August 2025

Vadodara, Gujarat

- Developed Core PHP travel booking website with third-party flight and train API integrations; added Calendar API for real-time pricing in a dynamic date picker
- Built multi-turn WhatsApp chatbot using Flask with in-memory session management for conversation context
- Deployed Node.js backend on AWS EC2 with Nginx as reverse proxy; configured CNAME on Hostinger and provisioned SSL certificates for production
- Diagnosed and resolved cross-service CORS issues; implemented proper cross-origin request handling

Summer Intern

byteXL, Parul University

May 2024 – June 2024

Vadodara, Gujarat

- Built Python data processing scripts, web scraping tools, and REST API endpoints integrated with frontend applications

PROJECTS

AutoLead WhatsApp Chatbot | *LangChain JS, Node.js, RAG, WhatsApp API, PostgreSQL*

2025 – Present

- Automated lead capture via WhatsApp: LangChain JS agents extract contact info and persist to DB; RAG similarity search over uploaded business docs delivers context-aware replies
- Applied LLM guardrails to prevent off-topic outputs; implemented idle session expiry and full lifecycle management

- IVF Clinic Management Platform** | *React, Node.js, Prisma, PostgreSQL, Google Vertex AI, GCS, SendGrid* 2025
- Full-stack medical platform with AI-assisted image analysis; images stored in GCS with time-limited signed URLs for secure, authorized access
 - JWT-based auth, role-based authorization, and SendGrid transactional email notifications
- AI Bank Document Analyzer** | *Python, LLM, OCR* 2025
- Parses and extracts structured data from bank statements, Aadhaar cards, and PAN cards using AI; designed for KYC automation workflows
- Hotel Booking WhatsApp Bot** | *Node.js, LangChain JS, Oracle OHIP API* 2025
- Conversational bot for real-time hotel inventory lookup and reservation management via Oracle Hospitality API integration
